

PROJECT MANAGEMENT TRAINING

- **Client:** Ecova
- **Business Area:** Project Management Office
- **Opportunity:** Train Ecova staff in project management skills and best practices to create a unified approach to project management
- **Results:**
 - Trained 60 Ecova staff in project management skills and best practices based on the Project Management Body of Knowledge (PMBOK)
 - New skill sets have enhanced the way projects are managed; improving communications with stakeholders, creating efficiencies in processes, incorporating change and risk management practices, and implementing key planning and schedule management activities
 - Post training follow up has shown ongoing use of best practices by trainees and a high degree of satisfaction with the results of implementing learned skills and knowledge
